Smoke Alarm S-9102

CE

Features and Benefits

1. Self contain Optical Smoke detector and alarm sounder
2. With test and reset button
3. 9v operated
4. Low battery indication
5. Battery removable will inhabit cover from closing (as per UL standard)
6. Easy installation
7. LED indicator for 360º vision
8. Connection port to link up to 30 detectors in a single network
9. Output to interface with other security equipment

Description

S-9102 Smoke Alarm is designed for domestic usage such as a house, villa and apartment, etc. Built with high-quality components and advanced technology, the alarm has an excellently stable performance and low power consumption. A 9V battery will operate up to one year. It can be easily installed, no commission required.

Utilize internal buzzer to provide a loud local alarm. By using the output terminal, the alarm can be linked to other alarms in a common alarm network (up to 30 alarms) or can be interfaced to other systems.
